Which of the following is an answer to this objection?

- A. Use Tivoli Provisioning and Monitoring software

- B.Increase redundancy
- C.Lower TCO
- D.Use WebSphere Process ServerWArrialCourier NewZ

**Answer: A**

5. A prospect is confused with the multiple pillars (BR, EE, VC, and II) within the NEDC strategy. They are interested in virtualization and consolidation, but are concerned that too many pillars will result in a compromise and a poor solution.

Which of the following is an effective response?

- A.The pillars are interrelated and should be implemented together for maximum benefit
- B.NEDC Innovation Workshop will help them identify which pillars are most critical and create a roadmap for implementation of one or more pillars
- C.NEDC pillars should be implemented one at a time like most applications, combining them as goals makes implementation very difficult
- D.Select the most urgent with the highest ROI. Once a successful track record is established other pillars should be implementedWArrialCourier NewZ

**Answer: D**
