We offer free update service for one year.

**Exam** : **000-225**

**Title** : Power Systems with  
POWER7 and AIX & Linux  
Technical Sales Skills - v2

**Version** : DEMO

1.Which of the following customer environments would benefit most from the implementation of Active Memory Expansion?

- A.Workloads that peak at different times
- B.Workloads with highly compressible in-memory data
- C.Workloads that dedicate a large amount of memory to the file cache
- D.Workloads with applications configured to pin most of their virtual memory

**Answer: B**

2.A customer plans to consolidate workloads, but wants the flexibility to move from virtual to physical I/O in the future if their LPAR workload changes.What feature provides this capability?

- A.NPIV
- B.DLPAR
- C.Live Partition Mobility
- D.Shared Ethernet Adapter

**Answer: B**

3.AIX Profile Manager is a tool used for managing which of the following?

- A.WPAR profiles
- B.User activity profiles
- C.Partition profiles on the HMC
- D.Runtime configuration profiles

**Answer: D**

4.An LPAR has three virtual processors allocated.What is the maximum quantity of physical processors that could be consumed by this LPAR?

- A.0.3
- B.3
- C.12
- D.30

**Answer: B**

5.Which AIX performance tool provides a detailed snapshot of how virtual memory is used?

- A.tprof
- B.trace
- C.vmstat
- D.svmon

**Answer: D**
