**Exam** : **1Z0-952**

**Title** : Oracle Data Management  
Platform Cloud 2017  
Implementation Essentials

**Version** : DEMO

1.Which of the following is a reason to review and update a taxonomy?

- A. Taxonomy permissioning has been activated.
- B. There are too many categories in the taxonomy and it is hard to find the right data.
- C. The Category Value Assessment has been requested and addressed.
- D. It has been a month since the last audit was conducted.

**Answer:** A

2.When working with a customer on their data scoping project, which three are high-impact topics to discuss? (Choose three.)

- A. Granularity of taxonomy categories
- B. Offline file structure and content
- C. Exact number of users that will be classified into each category
- D. Total volume of categories that they anticipate in their taxonomy

**Answer:** ACD

3.How are look-alike models produced?

- A. They are built by identifying targets with the highest action rate on the Funnel Analysis report.
- B. They are built by data partners using complex algorithms of multiple data attributes.
- C. They are built within the platform using logic to connect audiences.
- D. They are built by ingesting online data from partner sites.
- E. They are built by creating audiences from categories with high index values.

**Answer:** E

**Explanation:**
