Exam : **C2090-621**

Title : IBM Cognos Analytics
Author V11

Version : DEMO

1.A customer wants to have a report with a bar chart, which is going to be displayed on a tablet. By changing a filter on the report, the chart should change dynamically. The report output size should be as small as possible.

How can this be achieved?

- A. Create an Active Report using visualizations. Check that the render method is set to Client.
- B. Create an Active Report using visualizations. Check that the render method is set to Server.
- C. Using a legacy chart with a conditional block around it. The block will be switched depending on the selected filters.
- D. Using a default chart with a conditional block around it. The block will be switched depending on the selected filters. Set the render method to Dynamic.

Answer: B

2.An author has finished working on a Dashboard and wants to make it available to other authors.

Where should the Dashboard be located?

- A. My content folder
- B. Team content folder
- C. Administration console, Mobile tab
- D. Administration console, Library tab

Answer: B

3.A report author wants to nest a chart within a list and filter the chart data to relate to the row of the list that it is displayed in.

How can this be done?

- A. Enable share result set on the list object.
- B. Create a join in the Query explorer to merge the data.
- C. Select the list and define a Master detail relationship.
- D. Select the chart and define a Master detail relationship.

Answer: D

4.How can a package be created?

- A. By combining Data modules.
- B. By using content administration.
- C. By publishing from a subset of a model.
- D. By using any valid non-relational Data source.

Answer: C

5.A report author wants to enhance a report by having the ability to display the data by region and filter by Order method (where Order method includes: Email, Fax, Post, Sales rep, Promo, Phone, Web site).

| Americas | Asia Pacific | Central Europe | Northern Europe | Southern Europe | Email | Fax | Post | Sales rep | Promo | Phone | Web site |
|--------------------------|------------------------|---------------------------|--------------------|-------------------|-------|-----|------|-----------|-------|-------|----------|
| Retailer country | Company name | Revenue | Margin | Order method type | | | | | | | |
| Sweden | Campingspecialisten | \$3,051,204.78 | 10,101% | E-mail | | | | | | | |
| Sweden | Grand choix | \$1,726,778.08 | 4,183% | E-mail | | | | | | | |
| Denmark | Kobenhavn Brillecenter | \$13,152.01 | 213% | E-mail | | | | | | | |
| Sweden | Sport Jonas | \$4,771,209.54 | 13,543% | E-mail | | | | | | | |
| Netherlands | Sportworld | \$2,497,455.97 | 5,300% | E-mail | | | | | | | |
| Overall - Summary | | \$4,686,775,768.85 | 19,403,090% | | | | | | | | |

How can this be accomplished?

- A. Select On-demand toolbar > Select checkbox group > Add default values
- B. Select Button Bar control > Go to properties > Change User interface to checkbox
- C. Create a parameterized filter from the order_method > Manually populate the parameterized
- D. Select the Button Bar control > From the on-demand toolbar > Click the ellipsis > Point to convert control > Click check box group

Answer: A
