Higher Quality, Better Service!

## **Q&A**

<http://www.killtest.com>

We offer free update service for one year.

**Exam** : **C2150-197**

**Title** : IBM Security Identity  
Manager V6.0  
Implementation

**Version** : DEMO

1.Which is true for the relationship between provisioning policies, services, and roles?

- A. A provisioning policy governs only services that are associated the same business unit or sub tree of the business unit with which the policy is associated. A role referenced in the provisioning policy must be associated the same business unit or sub tree of the business unit with which the policy is associated.
- B. A provisioning policy governs only services that are associated the same business unit or sub tree of the business unit with which the policy is associated. A role referenced in the provisioning policy can be anywhere in the tree of the organization.
- C. A provisioning policy governs services that are anywhere in the tree of the organization. A role referenced in the provisioning policy must be associated the same business unit or sub tree of the business unit with which the policy is associated.
- D. A provisioning policy governs services that are anywhere in the tree of the organization. A role referenced in the provisioning policy can be anywhere in the tree of the organization.

**Answer: A**
