Higher Quality, Better Service!

## **Q&A**

<http://www.killtest.com>

We offer free update service for one year.

**Exam** : **HP0-919**

**Title** : HP Data Protector Software  
Application  
Integration-Windows/UNIX

**Version** : DEMO

**1.What must be considered when migrating the Cell Manager from a PA-RISC to an Integrity system?**

- A.Reinstall the media agents.
- B.The new Cell Server should have the same name.
- C.Import the Internal Database (IDB) from tape media.
- D.The new Cell Server should have the same IP address.

**Correct:D**

**2.What must be done to integrate Data Guard on UNIX systems?**

- A.Install the Data Guard Integration Agent.
- B.Start the HP Data Protector Software Inet service as Oracle user.
- C.Start RMAN from the HP Data Protector Software admin account.
- D.Add the Oracle user to the HP Data Protector Software admin group.

**Correct:D**

**3.What must be done to migrate the Internal Database (IDB) from a PA-RISC to an Itanium system?**

- A.omnidbutil
- B.omniupdate.pl
- C.omnidbcheck
- D.omnimigrate.pl

**Correct:D**

**4.Which operation is unsupported for an Oracle standby database?**

- A.physical backup
- B.backup using the recovery catalog
- C.conversion to a standalone database
- D.configuration with a primary database

**Correct:C**

**5.You want to integrate HP Data Protector Software with Oracle-based SAP R/3 on UNIX. Which backup modes can you use? (Select two.)**

- A.RMAN
- B.backint
- C.SAPback
- D.BRTOOLS
- E.BRBACKUP

**Correct:A B**

**6.Where must you specify the login credentials with util\_oracle8.pl to configure a new Oracle standby database?**

- A.Oracle database server
- B.on each Oracle standby instance
- C.HP Data Protector Software Cell Manager
- D.database server and the standby systems

**Correct:B**

**7.For which Oracle database type is the exclusion of single objects from a full backup unsupported?**

- A.standby database
- B.standalone database

- C.recovery catalog database
- D.multiple-instances database

**Correct:A**

**8.You are integrating an SAP R/3 backup running on UNIX in HP Data Protector Software. What must be done before using the Oracle online backup functionality?**

- A.Link HP Data Protector Software library to Oracle.
- B.Add sysdba user account to HP Data Protector Software userlist.
- C.Replace omnidb command with Oracle version of this command.
- D.Add ORACLE\_SID variable in HP Data Protector Software global file.

**Correct:A**

**9.What is the purpose of online migration in ASM (Automated Storage Management)?**

- A.data movement from disk to disk
- B.online replication to a standby database
- C.online database backup to tape devices
- D.data sharing between different database servers

**Correct:A**

**10.What is the recommended method to configure HP Data Protector Software version 6.0 Cell Manager after migration from HP-UX 11.x to HP-UX V.11.23?**

- A.Create a local user account on the Cell Manager, log in to it, and use the Command Line Interface.
- B.Create a remote user account on the Cell Manager, connect to it from a remote system and use telnet.
- C.Log in to the Cell Manager locally using the root account, and use the HP Data Protector Software graphical user interface.
- D.Create a remote user account on the Cell Manager, connect to it from a remote system and use the HP Data Protector Software graphical user interface.

**Correct:D**
