We offer free update service for one year.

Exam : BA-201

**Title : Salesforce Certified
Business Analyst**

Version : DEMO

1.Which users will be able to reset a Single Sign-On User Password?

- A. The SSO Manager
- B. Users above the SSO user in the role hierarchy.
- C. Only the Admin
- D. Admin and Users with the right permission sets.

Answer: C

Explanation:

Only the Admin can reset a Single Sign-On user password because they have the Manage Users permission. The SSO Manager, users above the SSO user in the role hierarchy, and users with the right permission sets cannot reset a Single Sign-On user password unless they also have the Manage Users permission.

2.Which element of the storytelling process for UX is described here: "A hurdle that makes it difficult for your heroes to succeed on their journeys."

- A. Challenge
- B. Monster
- C. Victory
- D. Helper

Answer: A

Explanation:

A challenge is an element of the storytelling process for UX that describes a hurdle that makes it difficult for your heroes to succeed on their journeys. A monster is an element of the storytelling process for UX that describes a person or thing that causes problems for your heroes. A victory is an element of the storytelling process for UX that describes a successful outcome for your heroes. A helper is an element of the storytelling process for UX that describes a person or thing that assists your heroes along their journeys.

3.Which tool is used to create reports, incorporate filters and select the Report Type?

- A. Data Loader
- B. Report Builder
- C. A csv file that will then get imported.
- D. Report Composer

Answer: B

Explanation:

Report Builder is the tool used to create reports, incorporate filters and select the Report Type. Data Loader is a tool used to import and export data in Salesforce. A csv file is a file format that can be used to import or export data in Salesforce, but it is not a tool to create reports. Report Composer is not a valid tool in Salesforce.

4.Which permission is required to create, delete, refresh or activate a Sandbox?

- A. Sandbox Editor
- B. Environment Manager
- C. System Administrator
- D. Manage Sandbox

Answer: D

Explanation:

The Manage Sandbox permission is required to create, delete, refresh or activate a Sandbox. Sandbox Editor, Environment Manager, and System Administrator are not valid permissions in Salesforce.

5.Which Salesforce standard license can be given to someone who need access only identity services, such as single sign-on (SSO)?

- A. Identity Only
- B. Lightning Platform
- C. SSO License
- D. Salesforce License

Answer: A

Explanation:

Identity Only is the Salesforce standard license that can be given to someone who need access only identity services, such as single sign-on (SSO). Lightning Platform, SSO License, and Salesforce License are not valid standard licenses in Salesforce.
