We offer free update service for one year.

Exam : VNX100

**Title : Versa Certified SD-WAN
Associate**

Version : DEMO

1.The Versa Stateful Firewall feature offers which two security capabilities? (Choose two.)

- A. Unified Threat Management (UTM)
- B. Zone Protection
- C. Distributed Denial of Service (DDoS) protection
- D. Dynamic User Protection (DUP)

Answer: B,C

2.The administrator has to change the IP address of the Internet WAN link from DHCP to Static. The device template under Workflows has been updated with this change, but the change is not reflected in the branch device configuration.

In this scenario, which two steps should you take to solve this problem? (Choose two.)

- A. Commit the appliance configuration to the Device Template.
- B. Commit the Device Template configuration to the appliance.
- C. Update the controller's configuration with the static IP address of the branch's Internet WAN link.
- D. Update the Device Bind Data in Workflows with the IP address and gateway of the Internet WAN link.

Answer: B,C

3.A customer has a site activation planned using script-based provisioning; however, while unboxing the SD-WAN CPE, the engineer notices that the console cable is missing.

In this scenario, what would an engineer do to initiate the script-based provisioning?

- A. Connect a laptop to any LAN port on the device.
- B. Connect a laptop to any WAN port on the device.
- C. Connect a laptop to the management port on the device.
- D. Connect a laptop to the auxiliary port on the device.

Answer: C

4.What are two ways that a service template would be used? (Choose two.)

- A. as a post-staging template for multiple CPEs
- B. to apply an identical QoS configuration to multiple CPEs
- C. to apply a non-identical service configuration to multiple CPEs
- D. to share an identical service configuration across tenants

Answer: B,D

5.Review the exhibit.

The image displays two screenshots of the 'Add Rules' configuration window in a network security appliance. The top screenshot shows the 'Source/Destination' tab. It contains several sections: 'Source Address' (with a list containing 'Intf-LAN1-Zone' and 'Intf-WLAN-Zone'), 'Source Address Negate' (with a list containing 'Destination Address'), 'Source Site' (with a list containing 'Source Site Name'), and 'Destination Site' (with a list containing 'Destination Site Name'). The bottom screenshot shows the 'Applications' tab. It contains two sections: 'Application List' (with a list containing 'SHAREPOINT') and 'Saas Application Groups' (with a list containing 'Saas Application Group List').

Which set of conditions match the policy shown in the exhibit?

A. Traffic flows that meet any one of the following three conditions:

Source Zone - Intf-LAN1 Zone

Source Zone - Intf-WLAN-Zone

Application - SharePoint

B. Traffic flows that meet any of the following two conditions:

Source Zone - Intf-LAN1 Zone

Source Zone - Intf-WLAN-Zone

In addition, the below condition must also match

Application - SharePoint

C. Traffic flows that meet any one of the following three conditions:

Source Zone - Intf-LAN1 Zone

Source Zone - Intf-WLAN-Zone

Application - SharePoint

D. Traffic flows that meet all of the following two conditions:

Source Zone - Intf-LAN1 Zone

Source Zone - Intf-WLAN-Zone

In addition, the below condition must also match

Application - SharePoint

Answer: B
